

# Bill of Materials - ACT-PKR-7000 HPHT Permanent Packer, 7 in. 15K

Engineering Bill of Materials | Document BOM-PKR-7000 Rev A

|                    |                    |
|--------------------|--------------------|
| Product / Assembly | ACT-PKR-7000       |
| Document No. / Rev | BOM-PKR-7000 Rev A |
| Effective Date     | 2025-06-22         |
| Prepared By        | A. Gutierrez       |
| Checked By         | T. Okafor          |
| Approved By        | J. Martinez, P.E.  |
| ERP Reference      | ITEM-PKR-7000      |

## Revision History

| Rev | Date       | Description of Change          | By          |
|-----|------------|--------------------------------|-------------|
| A   | 2025-06-22 | Initial release (HPHT program) | R. Callahan |

## Bill of Materials

Hierarchy: Level 0 = top assembly; Level 1 = component or sub-assembly; Level 2 = sub-assembly component. Indented descriptions belong to the sub-assembly immediately above. Quantities are per one (1) next-higher assembly.

| Item | Lvl | Part Number      | Description                                     | Qty | UOM | Material / Spec                    | Notes                           |
|------|-----|------------------|-------------------------------------------------|-----|-----|------------------------------------|---------------------------------|

| 17   | 1   | ACT-PKR-7000-10 | ■ SUB, BOTTOM, 3-1/2 PREMIUM PIN DOWN | 1   | EA  | INCONEL 718 (UNS N07718)  |                            |
| 18   | 1   | ACT-PKR-7000-RK | ■ REDRESS KIT, PKR-7000 HPHT          | 1   | KT  | -                         |                            |
| 19   | 2   | ACT-ORG-240-A90 | ■ O-RING, -240, 90 DURO               | 6   | EA  | AFLAS 90A                 |                            |
| 20   | 2   | ACT-SEAL-T-350  | ■ SEAL, T-TYPE, MOLDED                | 2   | EA  | AFLAS 90A W/ PEEK BACKUPS |                            |
| 21   | 2   | ACT-PKR-7000-08 | ■ RING, SHEAR                         | 1   | EA  | AISI 1144                 |                            |

## General Notes

- All elastomer components are single-use: replace at every redress from the applicable redress kit.
- Load-path metallic components require heat traceability to a mill certificate (EN 10204 Type 3.1) retained in the device history record.
- Shear devices (rings, screws, pins) are calibrated items - substitute parts are prohibited.
- Torque all threaded connections per ACT specification TS-100 (packers/plugs) or TS-200 (accessories).
- Sour service (NACE MR0175/ISO 15156) configurations use the materials noted; verify trim level on the sales order before assembly.
- Referenced documents: datasheet DS-PKR-7000, applicable manual/procedure, and quality plan ACT-QP-08.
